

UNITED STATES EQUESTRIAN FEDERATION

OPEN ENDURANCE CLINIC

JUNE 22, 23 & 24th

PLACE: The Historic Hamilton Farm, Gladstone, New Jersey.

The Clinic features two and one half days of equestrian instruction and nutritional education. In addition, horses will be evaluated by the USEF Pan American Veterinary Panel. This is a great opportunity to polish your equine skills and knowledge.

This is an OPEN CLINIC. Priority is given to Ranking List Riders who sign up prior to June 10. After that date, riders will be accepted on a first come, first serve basis.

FEATURED CLINICIANS

Shirley Svendsen

Shirley has been involved with horses all her life. In the 1970's and early 1980's, Ms. Svendsen competed extensively in Endurance. She returned to active Endurance briefly in the late 1990's to compete in several one-day 100's and 50-mile events, never finishing less than second (except for one lameness pull) and earning AERC-BC in each occasion. For the past 20 years she has been training riders and horses in and for dressage and teaching full time. Over the years, she has seen the benefits of applying dressage to all disciplines. Ms. Svendsen will provide small group and individualized instruction and critique for participants.

Dr. Kathleen Crandell

Kathleen is an equine nutritionist who comes to us through Kentucky Equine Research, the official equine nutritionist of the USEF. Ms. Crandell will offer individual feeding program evaluations for each attendee.

Veterinary Panel

Todd Holbrook, DVM; Stillwater, OK
Dwight Hooton, DVM; El Paso, TX
Duncan Peters, DVM; Lexington, KY

Endurance and the WEG 2010 Mini Forum

Art Priesz, Jr., Endurance Discipline Manager for the WEG will lead a forum discussion to develop ideas and discuss strategies for a successful Endurance Competition at the 2010 WEG.

Horse stabling and requirements

All horses will be required to have a current Coggins (1 year) and Health Certificate (30 days). I have included the Health requirements for the Gladstone facility, so please read carefully. This information is also available at www.uset.org Horses will be stalled overnight in the permanent barn facility at the USEF Headquarters in Gladstone. The Clinic fee covers one stall for Thursday, Friday and Saturday nights. Bedding is provided.

There will be no overnight camping on site. There are several hotels within a short drive of Hamilton Farms. A list of hotels, and a map to Hamilton farms will be sent once you have registered for the clinic.

Helmets are to be worn when mounted. Mornings can still be rather cool, so bring a light jacket, just in case.

For further information regarding the clinic, contact Vonita Bowers at (908) 326-1154 or vbowers@usef.org

USET FOUNDATION NEWS

EHV Vaccination Required for all Horses Entering USET Foundation Property

By USET Foundation
Category: ALL DISCIPLINE
Posted March 27, 2007

All horses entering USET Foundation property for clinics/events must have been immunized for Equine EHV-1 (either modified live or killed vaccine) no later than 90 days prior to arrival on the property. This means if your vaccine is over 90 days old by the time you are entering the grounds at the USET Foundation, you must update the vaccine no later than 5-7 days before the event you plan to attend. Show Managers for the various events will require proof of the vaccine PRIOR to entering the grounds. This proof must show date vaccinated, name of vaccine given (ie: Rhinomune, Fluvac Innovator, Calvenza, Pneumabort K, Resequin, or other), vaccine serial number and date and be signed by a licensed veterinarian.

THERE ARE NO EXCEPTIONS.

The necessary form is included here.

EVERY HORSE ENTERING USET FOUNDATION PROPERTY MUST HAVE THIS FORM SUBMITTED TO THE SHOW MANAGER OF THE EVENT YOU PLAN TO ATTEND PRIOR TO ARRIVING ON THE GROUNDS.

Given the fact that new cases of the Equine Herpes Virus continue to be reported, most recently in Virginia, health officials agree that the best protection is to be diligent with the vaccine. While we understand that the vaccine is not universally effective in preventing disease, it has been shown that horses that are vaccinated more frequently have fewer symptoms and a much more positive outcome if exposed to the virus.

During the next few months the USET Foundation facility will host many clinics and horse shows, as well as the Dressage Festival of Champions and Pan American Games Selection Trials. With all of the horse traffic due to come through the facility, it is imperative that we implement this policy for the safety of all horses.

REQUIREMENTS FOR ENTRY INTO THE USET FOUNDATION PROPERTY

ALL horses entering the USET Foundation property must submit this certification statement **PRIOR** to entering USET Foundation property. This certification form should be submitted to the show manager of the event(s) you are attending **PRIOR** to your arrival on USET Foundation property. **This certification must be signed by a licensed veterinarian.**

Vaccination Statement:

This horse(s) has been vaccinated for Equine EHV-1 (either modified live or killed vaccine) no later than 90 days prior to arriving on the USET Foundation property.

Date vaccinated _____.

Name of Vaccine:

_____ Rhinomune _____ Fluvac _____ Innovator _____ Calvenza _____ Pneumabort K _____ Resequin
_____ Other. Vaccine serial # and date _____.
