The Trails:

In response to rider requests we have shortened our 55 miles to 50 miles. Our 30 remains the same. Ours are single track trails, old dirt and gravel roads. The trails climb from the Illinois Valley floor to the tips of the Siskiyou's. They come down at Lake Selmac and then zip to the mountain ridges again. Along the way riders will enjoy views reaching to the ends of the earth. The challenge can be whatever you decide. Do you want to experience a day of remote forest wonder at a leisurely pace? Do you want to see if your horsemanship is up to a fast race through our mountains? Or is your best challenge somewhere in between? The choice is up to you.
